PRE-CARE

Arrive with clean skin: There should be no lotion, make-up, perfume, powder, bath/shower oil present on the skin in the area to be treated.

CONTRAINDICATIONS

- *open facial wounds or lesions / active skin disease*
- *severe or cystic acne on the face + neck*
- *electrical devices or metal implants in the treatment area*
- *children, pregnant women or breastfeeding women*

POST CARE

Following treatment, there may be some redness and/or swelling in the treatment areas that may last for a few hours; there should be no pain when the procedure is complete, while post-procedure discomfort or tenderness is possible.
